

Connect

with the Vital Energy of Nature

Product Catalog 2025

Dr. Malte Hozzel

Aromatherapist, founder of Ayus company and the aromatherapy seminar center „Orto de Prouvenc;o“ in High Provence.

Dear Aromatherapy Friends,

The great medicinal experts of the Vedic high culture of India, who already knew about essential oils, called the medicinal plant kingdom „Oshadhi“, which means „bearer of light“ or „promoter of the life force“. Even in those ancient times the medicinal plants have been considered as carriers of intelligence that trigger various transformations through sun-light: a very true concept if one thinks of photosynthesis and the essential oils coming out of this process. These essential oils are highly energetic substances, which benefit the human organism in many ways.

The essential oils in this catalog come to a large extent from wild growth, controlled organic cultivation or traditional agriculture without the use of artificial fertilizers, herbicides, pesticides or fungicides. In many years of direct contact to farmers on all continents, we have sought cooperation with those producers of essential oils who are willing to help by treating the soil with care, love their

plants and show respect to nature. Thus they make their contribution to a more friendly and healthier planet for the benefit of present and future generations.

Selecting essential oils not from the perspective of the highest possible yield, but according to quality and purity, especially in the ecological sense, is our commitment. We believe that this is the way to go and can change a lot.

In this catalog you find a large number of carefully selected well-known essential oils, but also a good variety of rare oils. We hope you enjoy our products.

Yours,

Dr. Malte Hozzel

Oshadhi Quality

Buying Essential Oils is a matter of trust. At Oshadhi you find Essential Oils in highest possible Quality from reliable Sources.

100% Natural

Oshadhi products are natural and not chemically modified. They only contain the oil of the specified plant. The oils are not mixed, diluted or stretched with other oils. They are not decolorized, deterpenated, peroxidized or reconstituted. They are labeled with the botanical name and the chemotypes. No synthetic additives, parabens or genetically modified plants are used. Our natural compositions mainly consist of organic ingredients and are produced with food emulsifiers. We use only natural fragrances, colors and preservatives.

Some absolutes have been made solvable with alcohol, jojoba or sweet almond oil (in the list marked “sol.”) if necessary, since they are not fluid in the solid state.

No Animal-Testing

Our products are 100% animal-testing free!

We do not use animal-tested ingredients and we do not test any of our products on animals.

Vegan

We do not use any raw materials from animals. The only non-vegan raw material we use in our products is untreated beeswax from organic bee-keeping.

Social Responsibility

The farmers and suppliers of Oshadhi products are paid fair prices. In doing so, we value long-term and personal relationships.

Quality Assurance

The raw materials of Oshadhi products are under constant laboratory control. This includes gas chromatography (GC) and mass spectrometry (MS) testing by certified chemists as well as regular examinations by independent external bodies (Prüfgesellschaft ökologischer Landbau mbH, ICEA, COSMOS).

Commercially available certifications such as “Natruë“, “Fair Trade“, “Vegan“ etc. would make our products unnecessarily expensive. Therefore we do not use these certifications at the moment and hope for the understanding of our customers.

Certification of Oshadhi Products

100% natural – from the very beginning

Most of the Oshadhi essential oils are from certified organic sources or wild-grown.

Here is an overview of classifications:

1. c.org/ EG-Organic – from certified organic farming
 - No use of chemical fertilizers, herbicides, pesticides, fungicides according to the EU law for organic farming
 - certified with Prüfgesellschaft ökologischer Landbau mbH (DE-ÖKO-007)
2. wc.org./ EG-Organic
 - wild from certified organic farming
 - certified with Prüfgesellschaft ökologischer Landbau mbH (DE-ÖKO-007)
3. c.org./ certified organic
 - No use of chemical fertilizers, herbicides, pesticides, fungicides
 - analog certified organic through Prüfgesellschaft ökologischer Landbau mbH
4. wc.org/ wild certified organic
 - analog certified organic through Prüfgesellschaft ökologischer Landbau mbH
 - This category applies to oils from wild-grown plants, harvested and distilled according to c.org. regulations. Their manufacturing does not differ from that of c.org. oils.
5. wild/ wild-grown
 - These essential oils come from wild-growing plants like Eucalyptus, Tea Tree, Pine sib. etc. and thus have not undergone chemical treatment
6. conv./ conventional cultivation
 - With these oils the manufacturing often takes place according to the standard of the old family enterprises. The products are unaltered and analysed; they meet our claim for pure and excellent olfactory quality.
7. Abs./ Absolutes
 - Absolutes are high quality plant extracts
8. CO₂-extraction
 - Highly potent and fragrant natural extracts by liquid CO₂ extraction without heating

Our general approach:

Distillation usually under low pressure. No overheating, slow distillation in order to preserve the maximum of active components in the essential oil which contribute to its special aromatic effect and healing power.

Soothing.

TIMELESS

Eye care oil
37283 -5

Oshadhi Timeless is a hydrating and firming eye care treatment that gently nourishes the delicate skin around the eyes while enhancing its natural radiance.

The formula features precious plant oils such as **prickly pear seed oil** and **apricot kernel oil**, which provide deep hydration and strengthen the skin's structure. It is complemented by essential oils of **jasmine**, **rose**, and **frankincense**, known for their balancing and regenerative properties.

The delicate, floral jasmine scent adds a sensual and natural touch to the experience.

Design

LABEL LETTERING IN BLACK

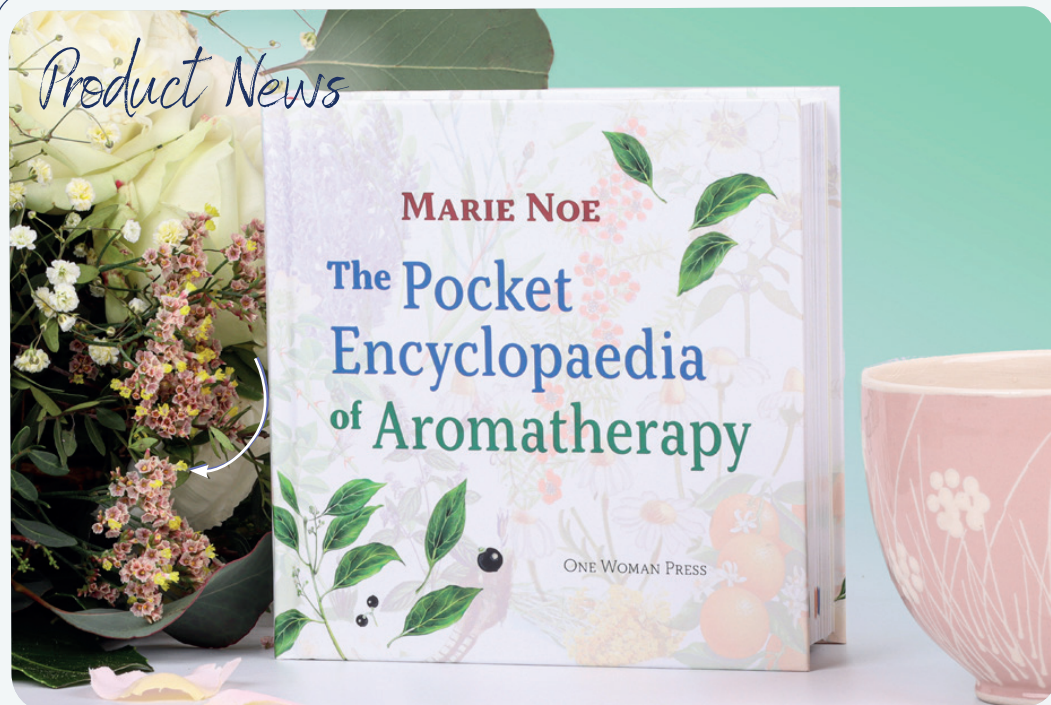

To enhance the readability of our label lettering, we have switched from white to **black text**. Now, our labels are easy to read for our customers both online and offline.

Another development is the design of the **Macerte labels**, which now feature the **Paradise logo**.

CO₂-Extracts

CO₂ extraction is a relatively new procedure, which brings new products with new compositions of ingredients. As CO₂ extracts can contain amounts of carrier oil, essential oils, sterols and other plant components, we decided to create this new category. With this we want to highlight the specialty of these products. We have seven further CO₂ extracts which contain mainly essential oil. These will remain in the category of essential oils.

	Art-No	Name	Botanical Name	Cultivation	Certification	Origin	Manuf. Method	Part of Plant
	66515	Cashew Seed Oil (CO ₂) organic	Anacardium occidentale	c.org	DE-ÖKO-007	Burkina Faso	CO ₂ -extracted	Kernels
	66530	Coconut oil (CO ₂ -Extract) organic	Cocos nucifera	c.org	DE-ÖKO-007	Sri Lanka	CO ₂ -extracted	Nut
	66510	Fenugreek (CO ₂) organic	Trigonella foenum graecum	c.org	DE-ÖKO-007	Germany	CO ₂ -extracted	Plant
	66531	Nigella (Black Cumin) CO ₂ , organic	Nigella sativa	c.org	DE-ÖKO-007	India	CO ₂ -extracted	Seeds
	66550	Sea buckthorn seeds (CO ₂ extract) organic	Hippophae rhamnoides	c.org	DE-ÖKO-007	Germany	CO ₂ -extracted	Seeds

Diffusers

Diffusers that create a harmonious and uplifting room atmosphere, spreading the essential oils or blends in a gentle way, without altering their consistency and strength.

Diffuser

Art-No	Name	Description
7016	Light Air Diffuser	The Light Air diffuser is a compact and handy device to diffuse essential oils in small or medium size rooms or a personal workplace. It works with a ventilator and a diffusion pad where the essential oil is dropped on. It is lit up when operating. It can be powered by battery or plugged into any USB plug.
7018	Cool Breeze Diffuser (USB plug + socket adapter)	The Oshadhi Cool Breeze Diffuser is a great way to enjoy the magic of essential oils without using heat. The diffusion is in intervals of ca. 10 sec.. It can be powered with any USB power supply. It is easy to refill and can be used with 5 and 10ml bottles. (plug: USB connection + socket adapter)
7020	Oshadhi Crystal Light Diffuser	Natural diffuser that works with a highly effective membrane pump. The essential oils are not heated, so that there is no oxidizing or ionization. Consists of: a wooden FSC-certified base, a hand-blown glass container with built-in spray head, atomization nozzle and adapter
7029	Ambiance	The Ambiance diffuser is a compact and handy device to diffuse essential oils in small or medium size rooms or a personal workplace. It works with a ventilator and a diffusion pad where the essential oil is dropped on. It is lit in either one color or a play of changing colors. It can be powered by battery or plugged into any USB plug.
7063	Aroma Spa Ultrasonic Diffuser (white) with EU electric plug	This diffuser can be used with Hydrolates or Essential Oils diluted in water which will be transformed into fragrant mist. The hand-blown glass cover comes in 2 options: white or iridescent opal colour. With timer feature and changing light options. Adapter included. EU electric plug.
7064	Aroma Spa Ultrasonic Diffuser (pearl) with EU electric plug	This diffuser can be used with Hydrolates or Essential Oils diluted in water which will be transformed into fragrant mist. The hand-blown glass cover comes in 2 options: white or iridescent opal colour. With timer feature and changing light options. Adapter included. EU electric plug.
71140	Oshadhi Coolair Aroma Diffuser 230V	The diffuser uses a ventilator and an exchangeable pad for Essential oils. It operates without water; atomizes oils without heating them, is suitable for rooms up to approximately 20 square meters, and uses a USB cable for power supply. The device has a decorative light and the unit will automatically be turned off after 8 hours.
71155	Diffuser KOKO	This koala diffuser offers air humidification and diffusion for areas up to 60 m ² , featuring automatic shutdown, light effects, compatibility with essential oils, and an anti-bacterial material. These original creations are made in ceramics (ecological materials), molded, sculpted, and polished by hand.
71156	Diffuser YOYO	The teddy bear diffuser offers air humidification and diffusion for areas up to 60 m ² , featuring automatic shutdown, light effects, compatibility with essential oils, and an anti-bacterial material. These original creations are made in ceramics (ecological materials), molded, sculpted, and polished by hand.

Business Terms and Conditions

§ 1 Basic provisions

(1) The following business terms are applicable to all the contracts, which you conclude with us as a supplier (Ayus GmbH). Unless otherwise agreed upon, the inclusion, if necessary, of your own conditions is ruled out.

(2) A 'consumer' in the sense of the following regulations is every natural person who concludes a legal transaction which, to an overwhelming extent, cannot be attributed to either his commercial or independent professional activities. The term 'businessman' refers to every natural person, legal person or legally responsible partnership that concludes a legal transaction in pursuance of his/its independent professional or commercial activity.

§ 2 Conclusion of the contract

(1) The subject-matter of the contract is the selling of products.

(2) Our offers on the website are non-binding and are not a binding offer to conclude a contract.

(3) You can use the online shopping cart system to place a binding offer of purchase (order). Here, the goods meant for purchase are stored in the 'Shopping cart'. You can use the respective button in the navigation bar to call up the "shopping cart" and make changes at any time. After the 'check-out' page has been called up and the respective personal data and payment and shipping conditions have been entered, all the order data is displayed again on the order overview page. Before the order is sent, you can re-check all the data, change it (which can also be done via the internet browser's 'back' function) or cancel the purchase transaction. When the order is placed using the "Ordering with cost liability" button, you are considered to have made a binding offer to us.

(4) The acceptance of the offer (and with it, the conclusion of the contract) takes place immediately after placing the order via a textual confirmation (e.g. email), in which you receive confirmation (order acknowledgement) regarding the execution of the order or the delivery of the products in question. If you have not received any corresponding message within this deadline, you are no longer considered to be bound to your order. Under such circumstances, any services that have already been provided are restored without undue delay.

(5) You are not bound by your enquiries regarding the creation of an offer that have been conveyed to us. We supply you with a textual and binding offer (e.g. via e-mail), which you can accept within a period of 5 days.

(6) The execution of the order and the sending of all the details necessitated by the conclusion of the contract take place via e-mail, in a partially-automated manner. Consequently, you have to ensure that the e-mail address that you have deposited with us is the correct one, and that the receipt of the respective e-mails is guaranteed. In particular, you have to ensure that the respective e-mails are not blocked by a SPAM filter.

§ 3 Right of retention, reservation of proprietary rights

(1) You can only exercise a right of retention if the situation in question involves claims arising from the same contractual relationship.

(2) The goods remain our property until the purchase price is paid in full.

(3) If you are a businessman, the following conditions also apply:

a) We retain ownership of the goods until all the claims arising from the ongoing business relationship have been settled in full. The goods subject to retention of title may not be pledged or transferred by way of security before ownership of the said goods changes hands.

b) You can re-sell the goods within the framework of an orderly transaction. In this regard, you hereby cede all the claims amounting to the magnitude of the billing amount that accrue to you as a result of the re-selling operation to us, and we accept the cession. Furthermore, you are authorised to collect the claim in question. However, insofar as you do not discharge your payment obligations in an orderly fashion, we reserve the right to collect the claim ourselves.

c) In a situation involving the combination and amalgamation of the goods subject to retention of title, we acquire co-ownership of the newly-formed item. This co-ownership corresponds to the ratio that exists between the invoice value of the goods subject to retention of title and the other processed items at the time of processing.

d) If you make a request of this nature, we shall be obligated to release the securities that are due to us, to the extent that the realisable value of our securities exceeds the claim to be secured by more than 10%. We are responsible for selecting the securities to be released.

§ 4 Warranty

(1) The statutory warranty rights are applicable.

(2) As a consumer, you are requested to promptly check the product for completeness, visible defects and transport damage as soon as it is delivered, and promptly disclose your complaints to us and the shipping company in writing. Even if you do not comply with this request, it shall have no effect on your legal warranty claims.

(3) Insofar as you are a business, the following difference applies to the aforementioned warranty regulations:

a) It is understood that the details provided by us and the product description provided by the manufacturer are the only things that represent the properties and condition of the product in question. Other advertisements, blurbs and statements issued by the manufacturer are not considered to be representative of the properties and condition of the said product.

b) If the goods are found to be faulty, we shall reserve the right to repair the goods or deliver replacements. If the defect is not removed, you can demand a reduction in the price or withdraw from the contract at your discretion. The defect removal is applicable after a failed second attempt, unless the circumstances prove otherwise, in particular due to the nature of the object and/or defect or other conditions. In case of repair, we must not bear the additional costs, which arise from the transfer of the item to a place other than the place of fulfilment, as far as the transfer does not correspond to the intended use of the item.

c) The warranty period amounts to a period of one year after delivery of the product. The reduction in time-limit does not apply:

- to damages culpably attributable to us arising from injury to life, limb or health and for other damages caused by wilful intent or gross negligence;
- insofar as we have wilfully concealed the defect or accepted a warranty for

the quality of the goods;

- to goods which are used for a building in accordance with their normal use instructions and whose defects were caused by this;

- for statutory recourse claims, which you have against us in connection with warranty rights.

§ 5 Choice of law, place of fulfilment, jurisdiction

(1) German law shall apply. This choice of law only applies to customers if it does not result in the revocation of the protection guaranteed by the mandatory provisions of the law of the country in which the respective customer's usual place of residence is located (benefit-of-the-doubt principle).

(2) If you are not a consumer, but a businessman, a legal entity under public law or an institutional fund governed by public law, our place of business is the place of jurisdiction as well as the place of fulfilment for all services that follow from the business relationships that exist with us. The same condition applies to situations in which you are not associated with a general place of jurisdiction in Germany or the EU, as well as situations in which the place of residence or the usual place of residence is not known at the time of commencement of proceedings. This has no bearing on the capacity to call upon the court associated with another place of jurisdiction.

(3) The provisions of the UN Convention on Contracts for the International Sale of Goods are explicitly inapplicable.
